FOR IMMEDIATE RELEASE

**INNEROPTIC SELLS FIRST VIDEO SEE-THROUGH HEAD-MOUNTED
DISPLAY TO THE UNIVERSITY OF OSLO**

Hillsborough, NC February 9, 2006 – InnerOptic announces its first sale, a Video See-through Head-mounted Display, to the University of Oslo, Norway. InnerOptic President Kurtis Keller noted, "the first sale of any growing technology company is a significant milestone and we are pleased to have reached it."

About InnerOptic Technology, Inc

InnerOptic was founded in 2003 to commercialize the patented 3D Laparoscope technology, initially developed by researchers at the University of North Carolina at Chapel Hill. A privately held company, InnerOptic is currently head-quartered in Hillsborough. For more information, please visit <http://www.inneroptic.com/>
